

# Declaration of liability / Waiver

Every user of the entire trampoline facility requires a valid online disclaimer - the so-called "Waiver"!

Anyone over 18 must fill this out for themselves.

Under 18? Then a parent or legal guardian must fill out the waiver and add the underage child!

If possible, please sign this online before arriving at the Funpark. For children under 18, the waiver must be signed by the legal guardian! If necessary, there is still the possibility on site via tablets.

I am aware that the use of the activities made available in the facility by the operator is inherently risky. In order to avoid injury, I have been made aware of the rules of use listed below. I accept these as binding.

Furthermore, I will follow all instructions given by the operator or his staff without delay. I am aware that I may be expelled from the facility without any right to a refund of the entrance fee if I fail to comply.

Use of the facilities is at your own risk. I am aware that the operator accepts no liability for personal injury, damage to property or financial loss damage - except for damage resulting from injury to life, limb or health - only in the event of intent or gross negligence on the part of the operator, a legal representative or one of its vicarious agents.

I am aware that the operator accepts no liability for the loss of or damage to the user's checkroom or other items, unless the damage is due to an intentional or grossly negligent breach of duty by the operator, a legal representative or one of its vicarious agents.

This also applies to vehicles parked in the parking lots. For force majeure and coincidence as well as for defects that are not immediately recognized even when exercising the usual care, the operator is not liable.

I declare that I am liable for any damage caused by me, my children or persons under my supervision to the facility or objects belonging to the operator or third parties or the health of third parties.

I have transferred the duty of supervision to the legal guardian for any children under the age of 18 who may be with me and have read and explained the terms of use to all of them.

If I am not the sole legal guardian of the children named here, I confirm that I am authorized to conclude this declaration of liability.

I am aware that the operator will store the data I have provided. The data will be treated confidentially and only used for my own use. It will not be passed on to third parties.

I consent to the processing of my personal data for the purpose of liability. All data is collected exclusively for the purpose and treated in accordance with the Data Protection Act. The legal basis is Art. 6 para. 1 lit. b and f DSGVO. Further information on data protection and your rights at <https://www.funpark-kl.de/en/privacy-policy>

All information and consents are valid until revoked. I can declare this revocation at any time to the operator under the contact details provided.

I have read and accepted the General Terms and Conditions (GTC) of Eventpark Kaiserslautern GmbH.

# Declaration of liability / Waiver

(\*) I am aware that trampolining carries a high risk of accidents. I have read and understood the General Terms and Conditions of Use and undertake to use the trampoline facility only within the limits of my physical and health condition. I have the duty of supervision for any children under the age of 18 who are with me of the legal guardian and have read and explained the terms of use to everyone.

(\*) I consent to the processing of my personal data for the purpose of liability. All data will be used exclusively collected for the intended purpose and treated in accordance with the Data Protection Act. The legal basis is Art. 6 para. 1 lit. b and f DSGVO. Further information on data protection and your rights at <https://www.funpark-kl.de/en/privacy-policy>

## Applicant (aged 18 and over), legal guardian, accompanying adult

First name\*

Last name\*

Date of birth\*

Street, house number\*

Postcode, place of residence\*

Place, date of jump day\*

Signature / signature of legal guardian\*

Fields marked with \* are mandatory and must be completed. All data is collected exclusively for the intended purpose. We expressly point out at this point that any falsification of documents will be reported to the police. We reserve the right, if necessary to inspect the educational authorization.

# User rules

## Safety instruction / safety sheet

**1.** Before using the experience areas, in addition to these rules of use, the general terms and conditions of Eventpark Kaiserslautern GmbH, the safety instructions on the screens and the instructions of the staff must be carefully followed and observed. Above all, they serve to avoid accidents and therefore your safety. If you do not follow them, you risk serious injury, paralysis or death to yourself and others. Instructions from staff must be followed immediately and at all times!

### **2. One jumper per trampoline**

Jumping by two or more people on one trampoline field is strictly prohibited. It is therefore forbidden to run or jump on occupied trampoline fields. In particular, synchronized jumping or so-called "catapulting" is dangerous. Serious injuries, paralysis or death can result.

### **3. Observe the jumping zone and limits of the trampoline**

Always stay in the center of the trampoline surface when jumping. Do not leave the trampoline in one jump. Jumping or performing somersaults or other trick jumps over the covers or from trampoline to trampoline is not permitted. This can lead to serious injuries, such as injuries to ligaments, due to hitting the ground next to or between the trampoline surfaces or on unpadded areas. Also injuries such as injuries to ligaments, tendons, broken bones, skull fractures, vertebral injuries, broken necks, paralysis or death.

### **4. No jostling, pushing or shoving**

Be considerate and watch out for other jumpers. Disturbing other jumpers on the trampolines can seriously endanger them when they land. For these reasons, jostling, running, attacking, pushing or playing catch is not permitted. During the entire jumping time it is essential to be considerate of others and not to endanger them at any time through uncontrolled actions.

### **5. Somersaults and dangerous tricks**

Flips and other tricks are dangerous! Performing tricks outside your own abilities can lead to incorrect landing, e. g. on the head or neck. Serious injury, paralysis or death can result. Such tricks should only be performed by very experienced jumpers. Assess your abilities realistically so as not to endanger yourself or others.

### **6. Children under 7 years only with supervision**

Children under the age of 7 may only jump under the permanent supervision of a known adult who is in possession of a valid jumping time band. Children under the age of 7 do not yet have enough experience to correctly assess their own abilities and do not have the knowledge to recognize dangers in good time. The accompanying adult helps the child to minimize the resulting higher risk of injury by intervening.

### **7. Take care of your health**

Pregnant women, people with health restrictions, people who are unable to walk and/or stand independently due to a disability, and people weighing over standing, as well as persons with a body weight of over 120 kg are not permitted to jump. If you suffer from back, heart or other complaints such as asthma or diabetes, please consult a doctor beforehand.

### **8. Alcohol and drugs are not permitted**

The use of the trampoline areas under the influence of alcohol or drugs is prohibited.

### **9. The jumping area is not intended for lying down or resting**

Breaks are possible outside the jumping areas, e. g. on lounge furniture or other seating.

### **10. Climbing is prohibited**

Climbing or hanging on walls and nets and touching the basketball equipment is not permitted.

### **11. Socks compulsory**

The jumping areas may only be entered with our jumping socks, which are offered for sale and manufactured for the purpose of using our trampoline hall, Gym slippers, sneakers or commercially available socks with rubber trim are not permitted for accident prevention reasons. The use of the ninja area and the trampoline area with short-sleeved shirts and shorts increases the risk of injury and is not recommended, as this can lead to painful abrasions and scrapes on the skin when hanging from the ropes and hitting the trampoline surface.

### **12. Wearing appropriate clothing**

Clothing should be free of hanging zippers, loops or straps. Hearing and visual aids must be removed or must be such that they cannot come off the face when jumping. The wearing of headgear of any kind is prohibited. Jewelry and piercings must be removed and pockets must be emptied in advance. If you have long hair, tie it in a plait. The use of the ninja area and the trampoline area with short-sleeved shirts and shorts increases the risk of injury and is not recommended as this can cause painful abrasions to the skin when hanging from the ropes and hitting the trampoline surface.

# User rules

## Safety instruction / safety sheet

### 13. Foreign objects

All pants and jacket pockets must be emptied before jumping. Jewelry, watches, cell phones, belts with rivets and glasses must also be removed. Objects such as balls or other play and sports equipment that you have brought with you are prohibited! In addition to damaging the objects you have brought with you, there is also a risk of serious injury. Jumping with objects such as keys, cell phones, cameras etc. is not permitted. This can also lead to serious injuries.

### 14. No food and drinks

Food and drink as well as chewing gum and sweets are generally prohibited in the jump area and the ninja course. The bringing of food is generally not permitted.

### 15. Foam pool (Foampit)/inclined trampoline

Backflips in foam pools are prohibited. Landing in the foam pools must take place over a large area. Diving in head or feet first can lead to serious injury, paralysis or death. Digging holes or rummaging through of the cube pools is not permitted for safety and hygiene reasons. The jumping and landing zone must be left immediately to avoid injury-causing collisions with other jumpers.

### 16. Airbag

Landing in the airbag must always take place over a large area. Therefore, jumping into the airbag requires good body control and jumping practice. Only experienced jumpers may perform somersaults. Diving in head or feet first, or at an acute angle, can lead to serious injury, paralysis or death.

### 17. Battle beam (gladiator beam)

Hits to the neck or head are prohibited. The aim is to throw the opponent off balance and cause him to fall by hitting him skillfully below the shoulders. Jumping from the gladiator beam into the cube pool/airbag is forbidden, as is pushing off when falling, as this increases the risk of injury.

### 18. Wall trampoline (Jump-Wall)

The Jump Wall trampoline is an attraction with particularly dynamic jumping characteristics and may only be used by experienced jumpers. Jumping from the Jump Wall onto the trampoline is not permitted due to the high risk of accidents. Flips are strictly prohibited. Otherwise serious injuries, paralysis or death may result.

### 19. Wip-Out (Twister)

The Twister may only be operated by trained personnel. Manual operation by guests, e. g. by pushing the Twister bars, is not permitted. Even when operated correctly, this can result in serious injuries. Running from trampoline to trampoline within the Twister is not permitted.

### 20. Jump Tower

Jumping from the Jump Tower is only permitted alone, not in pairs or groups. Landing should be as wide as possible. Landing head or feet first on the airbags (landing zone of the Jump Tower) is extremely dangerous. This can lead to serious injuries such as concussions, unconsciousness and injuries to the face due to the recoil of the knees on impact, or injuries to joints, spine and broken bones.

We wish you a pleasant stay!

KAISERSLAUTERN
